HANDCRAFTED WOOD

Premium-quality wood harvested from sustainable and naturally fallen forestry provides exceptional beauty and durability.

reliable, safe and durable construction

RUST-PREVENTION SYSTEM

Steel skins are protected through a tough, layered coating system, including a hot-dipped galvanized layer, a protective metal oxide pretreatment and a baked-on primer and top coat.

ALUMINUM RETAINER

Replaceable bottom weatherseal in a corrosion-resistant aluminum retainer helps seal out the elements.

PATENTED SAFE-T-BRACKET[®]

Helps prevent serious injury that could occur if the bottom bracket were removed with the garage door closed and under tension.

WARMER

Industry-leading R-values of up to 20.4 provide year-round comfort and energy savings.

QUIETER

Just open a non-insulated garage door and then an Intellicore door, and you'll hear a huge difference.

STRONGER

A Clopay garage door featuring Intellicore is nearly twice as strong as a polystyrene door of the same thickness, so it will look better, longer.
